

smart **MAGNUM 2.0** (Diode Laser + IPL)

Know its
advantages

****Equipment with TWO DIFFERENT TECHNOLOGIES integrated****

- Maximum power
- Reduces treatment duration 50%.
- Possibility to choose and combine wavelength in diode laser or use IPL.
- Smart computer with integrated Android system
- Flexible and easy-to-use programming development.
- Integrated Wi-Fi and possibility of internet connection.
- Saves and memorizes patient treatments.
- Hair removal quick and painless.
- Possibility of including photos of each session or treatment and being able to compare them with each other.

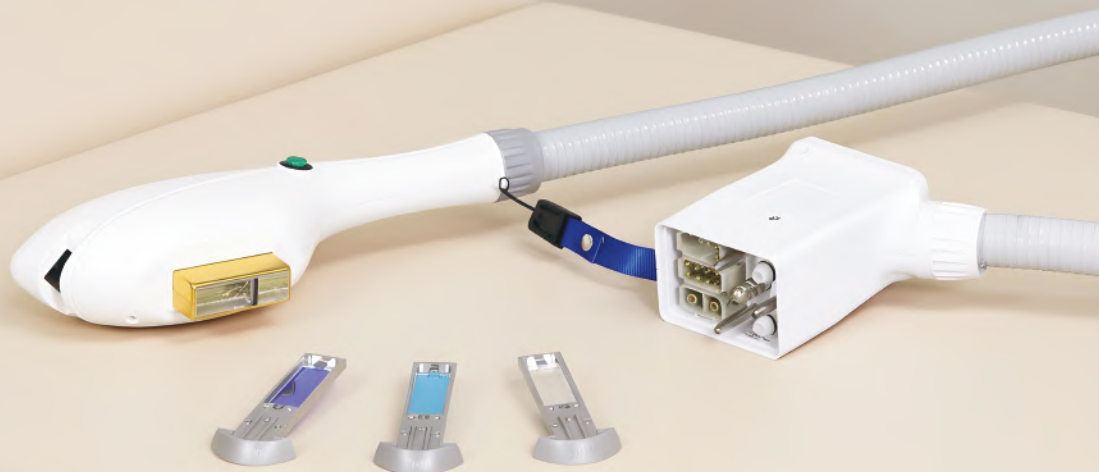

Know its *applications*

Hair removal.
Typical IPL facial treatments with preset programs and up to 8 filters.

Technology **2.0**
Made in Spain

8 filters with different wavelengths

IPL

Wavelength.....	430nm - 1200nm
IPL Power.....	IPL 2000W
Power flow.....	10 - 50 Joules/cm ²
Pulse duration.....	1 a 20 miliseconds
Spot size.....	15mm X 50mm
Interchangable filters.....	8 filters with different wavelengths

Diode Laser

Type of laser.....	Diode
Wavelength.....	808nm o 755, 808 y 1064nm
Laser energy.....	1 - 425 Joules
Pulses duration.....	1 - 200ms (máx. 400ms)
Maximum frequency.....	1 a 20Hz up to 20 Shots/Seg
Laser source.....	Maximum 4000W
Spot source.....	14mm x 26mm
Optional Spot size	14mm X 14mm 14mm X 38mm, Nasal

Optional Spots

Smart **MAGNUM 2.0**

(Diode Laser + IPL)

Measures

Wide.....	32cm
Deep.....	36cm
High.....	96cm
Weight.....	49Kg

Generals

System of cooling.....	Chiller Tec
Display touch screen.....	13,3" LCD
Input Power.....	2600W
Power line.....	AC220V 12A, 50 – 60 Hz
