# TANIT

AESTHETIC

## AN EXCLUSIVE COMBINATION OF TECHNOLOGIES TO DEFINE THE FIGURE LIKE NEVER BEFORE

What happens when you combine art and technology? The possibilities are endless, but in the field of beauty treatments, only TANIT aesthetic can create a body contouring masterpiece. This true **Silhouette Designer** is ready to transform the market.

Reshaping and defining the silhouette is now more possible than ever thanks to the perfect synergy between its patented **shape-in 3D** infrared and cold laser technology (DUAL Soft Laser) and Bioactive Damped Current (BDC) together with the **slaag motion** mechanical simulation handpiece.

TANIT aesthetic is a unique and revolutionary platform that performs an internal activation to stimulate the metabolism and eliminate toxins while working externally on tissues to sculpt the figure.

DESIGNER

## TWO EXCLUSIVE TECHNOLOGIES IN A SINGLE PLATFORM

Never before have the action of infrared and cold laser (Dual Soft Laser) and the power of Bioactive Damped Current (BDC) been combined in a single platform with mechanical stimulation to tackle the most common and challenging body contouring concerns.

# shape+in<sup>3D</sup>

### INTERNAL STIMULATION Dual Soft Laser + BDC

The shape-in 3D pads use the pioneering Dual Soft Laser technology (a combination of 639nm red and 830nm infrared lasers) together with the Bioactive Damped Current (BDC) to stimulate the body from within. This triple simultaneous action stimulates tissue regeneration, reactivates microcirculation and activates metabolism.

- **Patented** technology
- Hands-free application
- Electroporation together with specialised boosters from **THE BEAUTY METHOD.**

- **Activates metabolism**
- **Reduces swelling**
- **Increases muscle tone**
- **Combats flaccidity**
- **Increases collagen, elastin and hyaluronic acid production**

- Activates circulation
- Combats fluid retention
- Aids inch loss
- Sculpts and tones
- Improves cellulite

TANIT  
AESTHETIC

NO BURNS, NO PAIN,  
NO SIDE EFFECTS,  
KIND AND GENTLE  
TO TISSUE AT ALL TIME

slaag  
motion

## EXTERNAL ACTION 45 rotating spheres

The smart **slaag motion** head complements the triple action of the **shape-in 3D** technology with the mechanical stimulation produced by its 45 spheres. The rotation on the skin surface triggers natural physiological processes from the epidermis to the muscles, sculpting and defining the curves of the body in a 100% natural way.

- Easy to take apart for optimal cleaning thanks to its **"soft-click"** system.
- **Safe and effective:** its built-in sensor provides pressure control.
- Designed to work with **THE BEAUTY METHOD** Body Oils.

## BECOME A TRUE SILHOUETTE DESIGNER WITH TANIT AESTHETIC

- 2 technologies in a single device.
- **Exclusive combination:** Dual Soft Laser + BDC + mechanical stimulation.
- Suitable for any tissue type and body area.
- Efficacy backed by clinical studies.
- No consumables. No usage restrictions.
- **Patented technology.** Unique on the market, competitive advantage.
- **High profitability.** The results are visible from the first session, ensuring customer satisfaction and loyalty.
